A routine sports physical is what saved Jonathan's life when he was only 13 years old. The budding athlete was planning to play football and run track, but life took another turn when doctors found a large mass on the base of his neck. It turned out to be Hodgkin's Lymphoma. The news turned the family upside down; chemo, radiation and life-altering decisions. Jonathan admits he's learned to "not take things for granted, live life in the moment." He is now considered cancer free and is making his home in Beaumont, Texas with a new job as a chemical engineer. Carol's Hope continued to support Jonathan

through college. Looking back, he has fond memories of a trip to the aquarium in Georgia, "just getting out of town for a day, away from the hospital and treatment, meant more than anyone knew." Carol's Hope is proud of you, Jonathan, and we wish you the very best as you build your new life in Texas.

## Message from Our Founder, Carol Moeller

It is with a loving and joyful heart that I give tribute to Jack, my husband for 55 years. He is the most loving, caring, and thoughtful person I have known.

For over 22 years, he stood beside me helping with the families of cancer children. You may not have known but Jack also suffered the sickness of polio as a child that left him with the use of only one arm. He knew firsthand how the sick children feel going in and out of the hospital. He loved the children and they loved him.

Without a doubt he has earned his place in heaven. He is truly missed.

Give Hope,  
*Carol*
